🎯 Professional Summary

Full Stack Developer passionate about building scalable, efficient, and user-friendly web applications. Skilled in modern front-end frameworks and robust back-end systems, with cloud expertise ensuring secure and reliable deployments. Thrives on solving complex problems, optimizing performance, and delivering impactful digital solutions.

🛠️ Core Skills

- **Front End:** React.js (Vite), HTML5, CSS3, JavaScript (ES6+), Responsive Design
- **Back End:** Node.js, Express.js, PostgreSQL, REST APIs
- **Tools & Platforms:** Docker, Git, Cloud Platforms (AWS / Azure / GCP)
- **Other:** Performance Optimization, Problem Solving, Team Collaboration

🎓 Education

- **Nano Software Engineering Certificate** – ALX Software Engineering, Holberton Online Schools
- **B.Sc. Microbiology** – Cross River University of Technology

💼 Professional Experience

Full Stack Developer | Freelance Projects *2022 – Present*

- Designed and deployed responsive web applications using React.js and Node.js.
- Built RESTful APIs and integrated PostgreSQL databases for scalable back-end systems.
- Leveraged Docker and cloud services to ensure portability and reliability.
- Collaborated with clients to translate ideas into functional, user-friendly solutions.

🚀 Projects

- **Portfolio Website** – Personal brand site showcasing skills, projects, and CV download.
- **E-Commerce Platform** – Built with React.js and Node.js, integrated PostgreSQL for product management.
- **Cloud-Deployed App** – Containerized with Docker and deployed on AWS for scalability.

- **JustConnect** – A professional networking web app enabling users to instantly search for service providers such as plumbers, electricians, and other skilled workers. Features include real-time search, user profiles, and cloud-based deployment.

🏆 Achievements

- Improved application performance by 40% through optimized queries and caching.
- Successfully delivered multiple freelance projects with 100% client satisfaction.
